## Mechanical Systems: Sliders and Levers

Knowledge Organiser

Vocabulary	
Mechanism	a device used to create movement in a product
Lever	a rigid bar which moves around a pivot
Slider	a rigid bar which moves backwards and forwards along a straight line
Slot	the hole through which a lever is placed to enable part of a picture to move.
Guide or Bridge	a short card strip used to keep lever and linkage mechanisms in place and control movement
Card	a thick paper product
Masking tape	Sticky tape that can be moved if needed
Paper fastener	a pin used to hold paper together
Join	to attach different pieces together
Design	to come up with ideas and represent them with drawings
Make	to put together a representation of your idea
Evaluate	to decide whether your product meets the design criteria
User	the person in mind when designing a product
Purpose	the reason for making a product
Function	what a product does
Prototype	an original model on which later stages or forms are based or developed
Design Criteria	the precise goals that a project must achieve in order to be successful

## **Health and Safety**

Pay close attention when using sharp tools

Stop what you're doing as soon as the teacher or your partner says "stop".
