

Computing (Information Technology) – Year 1

How can we save memories on a computer/tablet?

Big Idea:

Photographs can be taken of special events and saved digitally to look at in the future.

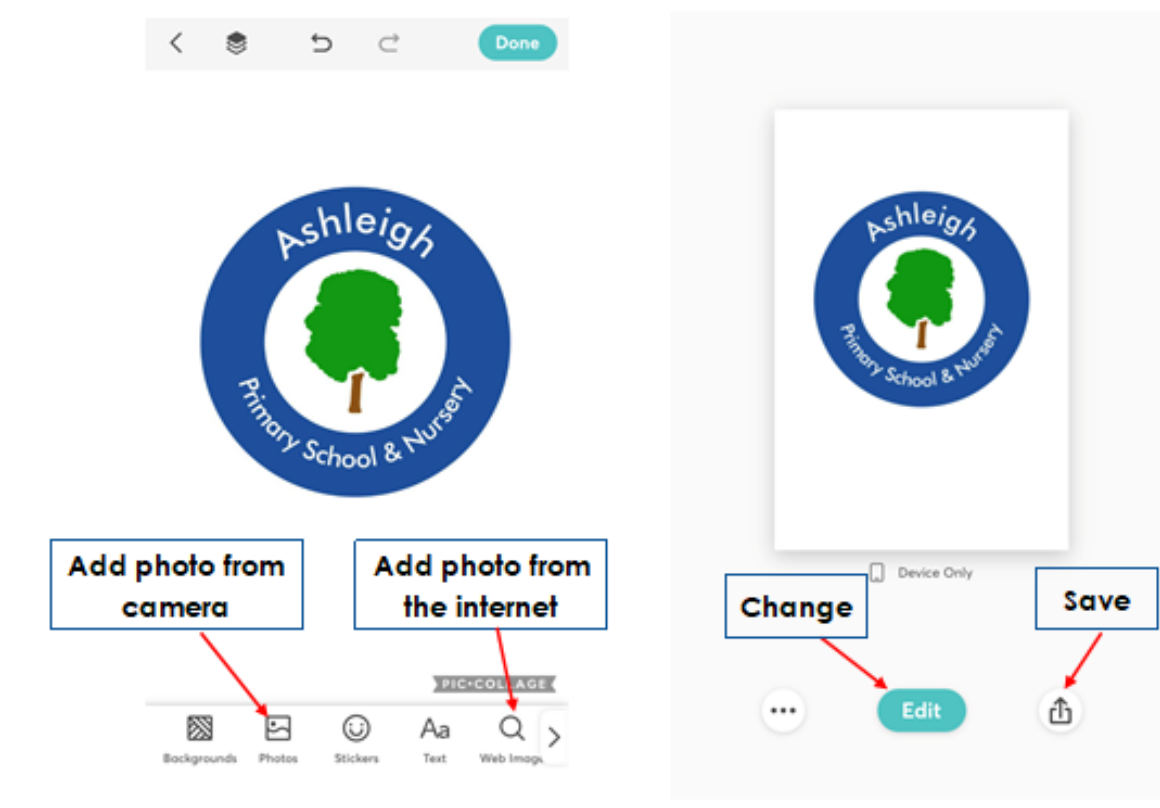

What should I already know?

- That there are simple apps and software on a tablet

What will I know by the end of this unit?

- How to use a camera on a device
- That you can save files onto tablets/computers.

PicCollage:
