

## Computing (Information Technology) – Year 4

### How are films made?

#### Big Idea:

Videos, writing and pictures can be added into apps and edited once in them to create videos.

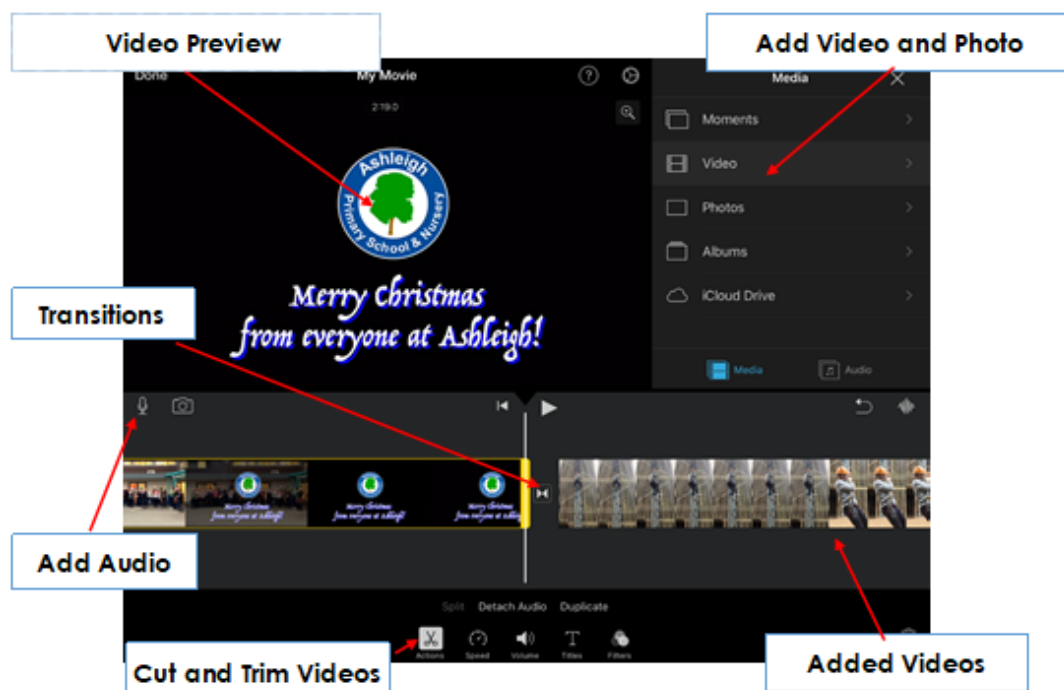

#### What should I already know?

- How search engines work, how to use them and take information from them safely.
- What keyword searching is and how to select keywords to produce the best search results.
- What an E-Book is and how it can be used to present information.

#### What will I know by the end of this unit?

- How to add video and voice recordings onto an app.
- How to cut and trim videos.

#### iMovie:

#### Key vocabulary:

<b>Video</b>	The recording and showing of moving images with sound.
<b>Trailer</b>	A series of short pieces of video taken from a longer video.
<b>Cut</b>	The process of putting more than one video together to form a longer video.
<b>Trim</b>	The process of removing parts of a video.
<b>Transition</b>	The way in which a digital image/video moves from one section to another.
<b>Voiceover</b>	Words spoken over the top of a video, normally added after the video has been taken.
